

RescueRigger™

Reference Card

ADDING GEAR

- Drag gear from the Gear Panel,
- Choose gear from the Insert menu, or
- Type the first letter of any item in the Gear Panel to display a menu of gear to insert.

MOVING GEAR

- Drag gear using your mouse, or
- Use the **Arrow** keys to nudge the selected item.
- Press **Ctrl** while dragging gear to move all connected gear.
- Press **F9** to float gear on the ropes.

CONNECTING GEAR

- Drag-and-drop gear so the ends overlap.
- Drag-and-drop any section of the rope onto other gear.

ZOOMING AND SCROLLING

- Press the **F5** key to change the zooming so all gear is displayed.
- Press the **1...8** keys to quickly zoom to 100...800%.
- Press **Shift** and then click-and-drag to zoom in on the workspace.
- Press **Ctrl** and then click-and-drag an empty area to scroll the entire workspace.

OTHER TIPS

- Press **F1** to display online Help.
- Press **F8** to calculate forces.
- ***Click your right mouse button on everything!*** This will display context-sensitive shortcut menus.
